REAL PEOPLE . REAL RESULTS

We started Al Azem Academy in 2015 because of our belief in the importance of providing a distinguished professional sports environment, and during the first four years we served more than 1,500 male and female players in three sports fields and we set up 3 distinct Ramadan camps

With the advent of the Corona pandemic, the academy took a warrior's break, which we took advantage of to rethink the transitional phase that the Kingdom is going through and how we can contribute to achieving the goals of the vision and expanding our business by contributing to building a vibrant community that practices sports in various sports.

After working tirelessly in the past two years, we have come back to you with the determination to be your partner on the road to building a vibrant community.
